PhotoShop2022 使用手册

一、软件运行

- 1. 打开 PhotoShop2022 内测版. sln,编译运行;
- 2. 打开 PhotoShop2022 内测版/bin/Debug, 找到 PhotoShop2022 内测版应用程序,点击运行:
- 3. 点击 PhotoShop2022 内测版下载,点击 Debug-Setup 下载软件(不推荐,除非 1、2 均失败,因为可能导致部分原有数据损失)。

二、软件使用

1. 学习功能:

运行软件后进入主页,可点击学习按钮,可见到相应视频教程;

或点击菜单栏-帮助,点击 PhotoShop 教程可进入学习。

2. 图片处理:

点击主页的新建、打开可进入 PS 工作区;

最上方菜单栏以及两侧工具栏操作对工作区中所有图片批量操作;

工作区中菜单栏和按钮仅对当前一个图片操作。

3. 文字特效:

点击最左侧工具栏或菜单栏-文字选项,可对文字特效处理。

4. 调色板:

右上方可进行调色,点击颜色/色板进行切换。

5. 开放功能:

菜单栏文件、图像、文字、选择、滤镜、视图、帮助等功能,欢迎体验,各个按钮可以都可以试试。

6. 语音功能:

触发某些按钮时会有语音提示,欢迎体验。

7. 缩放功能:

按住 Alt+滚轮可缩放,或菜单栏-图像,或工具栏中放大镜。

8. 其他:

还有其他小功能自行寻找体验哦!

三、软件更新:

- 1. 较 PhotoShop2021 增加批量处理功能;
- 2. 更新调色板配置;
- 3. 增加拍照功能;
- 4. 增加语音提示。

四、与我联系:

点击菜单栏-帮助-与作者联系,欢迎交流和提出改进意见!

PhotoShop2022 User Manual

First:Software Running

- 1. Open PhotoShop2022 internal test version.sln, compile and run;
- 2. Open PhotoShop2022 internal test version/bin/debug, find the PhotoShop2022 internal test version application and run it;
- 3. Click PhotoShop2022 to download the internal test version, and choose debug/setup to download the software (Not recommended unless 1 and 2 fail, because some original data may lost).

Second:Software Use

1. Learning:

After running the software, enter the home page and click the learning button to see the corresponding video tutorial;

Or choose menubar-help, and click PhotoShop Tutorial to learn.

2. Image processing:

Click New-button or Open-button on the home page to enter PS workspace;

The top menu bar and the toolbars on both sides operate all the pictures in the work area in batches;

The menu bar and buttons in the workspace operate only on the current picture.

3. Text effects:

Click leftmost toolbar-text or menu bar-text option to process text effects.

4. Color palette:

The upper right can be used for color matching, and click color/palette to switch.

5. Opened function:

Menu bar file, image, text, selection, filter, view, help, etc. Welcome to experience. You can try all the buttons.

6. Voice function:

There will be a voice prompt when some buttons are triggered.

7. Zoom function:

Press and hold Alt + scroll-wheel to zoom, or menu bar-image, or magnifying glass in left toolbar.

8. Others:

There are other small functions to find your own experience!

Third:Software Update

- 1. Batch processing function is added compared with photoshop2021;
- 2. Update the palette configuration;
- 3. Add photographing function;
- 4. Add voice prompt.

Fourth: Contact Me

Click menu bar-help-contact the author, welcome to communicate and put forward improvement suggestions!
